This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. WALLACE'S MONTHLY.

AN

Illustrated Magazine Devoted to Domesticated Animal Nature,

WITH

THE AMERICAN TROTTER

AS THE LEADING FEATURE.

THIS MAGAZINE is now in its twelfth annual volume, and its history has been prosperous. From the issue of its first number it has maintained an uncompromising hostility to gambling in every form. It has never hesitated to expose trickery and fraud, in high or low places, and that without regard to consequences. As an educator and a leader of thought on the great subject of breeding the trotter, it has already accomplished a revolution. It has brushed away everything that seemed to be "mysterious" in breeding-operations, and by a clear and forcible presentation of the laws of heredity and variation it has carried with it the judgment and practice of all intelligent breeders. For the history and thought of its times, this magazine will be the book of reference for the future. It is published in convenient shape for preservation in the library, and the constant aim is to make every number worthy of preservation.

THIS MOST RELIABLE AND POPULAR NEWSPAPER is published every Thursday, at $4.00 per year, $2.00 for six months, and one copy free with each club of five subscribers. Owing to the great cost of issuing so large an illustrated paper—averaging 32 pages—the price of subscription will be advanced to $5.00 per annum on and after July 1, 1886, with extra copy free as above. Each number will have a large colored cartoon, by H. H Cross or some other prominent artist, on current topics of the day, and many of the leading articles will be illustrated by pen-and-ink sketches. It contains weekly all the news of turf, stable, paddock, and road, and is indispensable to the breeder, the turfman, and every lover of the horse. During the past year it has offered and paid in premiums to the trotting-horse breeders of the United States $2,300, and has now two stake-races, with $3,000 added money, pending, for trotting and thoroughbred (running) foals of 1886. The Eastern Department gives each week all the current news from that section of the country, up to same date as the New York turf-journals, thus making **THE HORSEMAN** a complete epitome of horse-news for the whole country. It also contains interesting sketches, by "Amber" and other talented writers, on the romance of the turf, and is welcome alike to the stable and the parlor, the office and the home, the father and the family—a journal that will be at once an authority on equine matters and an interesting family newspaper. Its wide and rapidly growing circulation commends it to all classes of advertisers.
